COMMISSIONER'S MESSAGE

As President and CEO of Empire State Development and Commissioner of the Department of Economic Development, I am pleased to present the annual report on the START-UP NY program.

In 2016, START-UP NY completed its second full calendar year of accepting business applications, and it was a fruitful year. During those 12 months, the program grew rapidly, connecting New York's stellar system of public and private colleges and universities with exciting new and growing businesses that created, and will continue to create, jobs in communities from Buffalo to Stony Brook. Between May 2014, when the first business was accepted, and the end of 2016, 212 businesses were approved to participate in START-UP NY. In 2016, approved businesses reported the creation of 757 new jobs and investment of more than $31 million. This brings the program's total job creation to 1,135 new jobs, investment of more than $44 million, and employee wages of $95.7 million.

START-UP NY companies estimate the business and personal tax benefits utilized to be just over $6 million. Weighing the business tax benefits against the 1,135 jobs and more than $140 million in investment and wages paid by program participants, START-UP NY is proving to be one of the most cost-effective, innovative and valuable tools in New York's economic development tool box.

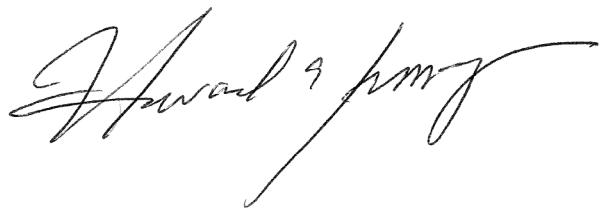
By linking businesses with colleges and universities, the START-UP NY program represents a fundamental change in the way New York State and participating companies do business. Since 2014, 82 colleges and universities have submitted and received approval for their campus plans: of this total, 56 of the academic institutions represent the State University of New York (SUNY), 21 are private institutions and five are part of the City University of New York (CUNY). START-UP NY provides a unique opportunity for these businesses to take advantage of the intellectual capital and

research and development capacity of our academic institutions, and for the students and faculty to gain access to the businesses and real-world opportunities for turning innovative ideas into commercial reality.

The majority of the participants are emerging technology companies in information technology, biotechnology or research and development. The companies represent industries of the future, and are utilizing vacant space that was not generating any economic activity prior to the START-UP NY program. By the end of 2016, START-UP NY identified nearly 6.5 million square feet of vacant building space and 2,951 acres of unused land as locations to attract new jobs.

Today, the Empire State has the most private sector jobs in its history and a growing economy that gets stronger every day. And thanks to the comprehensive efforts made in recent years, Upstate New York's economy is finally back on track. Everyone should have opportunities to prosper. With START-UP NY, we are taking advantage of some of New York's greatest assets – our world-class higher education system and human capital – to generate 21st century economic opportunities for all New Yorkers.

Sincerely,



HOWARD A. ZEMSKY
PRESIDENT, CEO & COMMISSIONER,
EMPIRE STATE DEVELOPMENT

INTRODUCTION

START-UP NY, an initiative launched by Governor Andrew M. Cuomo, is an innovative tax incentive program that partners New York State's large network of public and private colleges and universities with new, growing and relocating businesses. The program encourages businesses to create new jobs and partner with a college or university by providing tax benefits, including the opportunity to operate state and local tax-free for 10 years, and by allowing new employees to pay no state or local personal income taxes for 10 years.

By linking new and growing businesses with colleges and universities, START-UP NY provides a unique opportunity for these businesses to take advantage of various resources available at academic institutions – including clean labs, advanced machinery and equipment, 3-D printers, and audio and video equipment – and benefit from connections to faculty and students.

This report outlines the progress that START-UP NY companies and designated colleges and universities have made in 2016.

COLLEGE AND UNIVERSITY PARTICIPATION

A vital component of the START-UP NY program is college and university participation. These academic institutions dedicate the space and resources needed for the businesses and program to thrive. Each college or university wishing to participate in START-UP NY must submit a campus plan outlining the available space for Tax-Free Area designation and a strategy for the types of businesses the college or university wants to attract, based on the resources it has available. For example:

- SUNY Downstate Medical Center created a plan to attract businesses that align with the school's mission to educate health care professionals, advance medical knowledge through research and provide patients with the best medical care available.
- SUNY Cobleskill developed a plan to attract businesses that align with the agricultural focus of the college and the surrounding communities.

By creating and adhering to these plans, the participating colleges and universities create industry clusters and dynamic ecosystems that promote growth and information sharing. The targeting of specific industries ensures that companies locating to a community utilize the skills of students at the associated college or university. The goal is to keep graduates in New York State by creating jobs in their academic communities.

Thanks to START-UP NY, there are many examples of businesses working with colleges and universities in new and unique ways: sponsored by Finger Lakes Community College, Construction

Robotics has hired employees who formerly served in student co-op positions; and at SUNY Brockport, Precision Optical Transceivers is creating full-tuition scholarships for seniors.

As of December 31, 2016, 82 colleges and universities have submitted and received approval of their campus plans, of which 56 are State University of New York (SUNY) universities, colleges and community colleges; 21 are private colleges and universities; and five are City University of New York (CUNY) colleges and universities.

Approved Colleges and Universities: Regional Breakdown

The map on page 9 shows the geographic diversity of colleges and universities that were approved to participate in START-UP NY by the end of 2016.

Participation by Approved Academic Institutions – 2014-2016

DESIGNATION OF TAX-FREE AREAS

Since the start of the program, 6,499,414 square feet of building space and 2,951 acres of land have been designated as tax-free. This has resulted in the creation of 651 Tax-Free Areas throughout New York State. Upstate SUNY colleges and universities are not limited in the amount of campus space they can designate as Tax-Free Areas in their plans. As of December 31, 2016, public colleges and universities have designated 5,879,911 square feet of building space and 2,938 acres of land, resulting in 546 Tax-Free Areas.

Private colleges and universities in New York State may designate up to 3 million square feet of vacant land or space in New York–subject to approval by the START-UP NY Approval Board. Of this 3 million, 600,000-square-feet is available for designation by certain colleges and universities in Nassau, Suffolk, and Westchester counties and the five boroughs of New York City. Each county is allocated 75,000-square-feet of space. Once the 75,000 square-foot cap is reached in these counties and boroughs, the Board may designate up to an additional 75,000 square feet in each.

As of December 31, 2016, 92,219[2] square feet has been applied against the 600,000 square foot limit for private colleges and universities downstate and 455,307 square feet has been applied against the 2.4 million for private universities located Upstate.

Tax-Free Area Designation – 2014-2016

	Total	Public Colleges/ Universities[3]	Private Colleges/ Universities	CUNY Colleges/ Universities
Designated areas	**651**	546	75	30
Total square feet in approved areas	**6,499,414**	5,879,911	545,826	73,677
Total amount of acreage approved in areas	**2,951**	2,938	** [4]	13

[2] 92,219 square feet allocated to downstate private colleges includes 1,700 square feet of space from SUNY Maritime College pursuant to § 220.5(f)(1) of Title 5 of the New York Codes, Rules and Regulations. Elsewhere in the report, those 1,700 square feet are included with the public institution square footage.

[3] Includes SUNY and community colleges.

[4] Acreage is converted to square feet for tracking purposes pursuant to Econ. Dev. L. §432(2).

"Private, not-for-profit colleges and universities have long been terrific partners with state government, including working long and hard to make START-UP NY a success. By leveraging the economic contributions of New York's independent sector of higher education, START-UP NY is helping dozens of private, not-for-profit colleges and universities create new opportunities for students, from internships to introductions to business leaders and entrepreneurs."

Mary Beth Labate, President, The Commission on Independent Colleges and Universities in New York

Private Institution Tax-Free Area Designation

Location	Colleges or Universities	Tax-Free Areas	Space Allocated (ft2)	Space Remaining (ft2)
Upstate	**13**	**59**	**455,307**	**1,944,693**[2]
Downstate	**8**	**16**	**92,219**	**507,781**[2]
Bronx	1[5]	2	1,700	73,300[2]
Kings	1	2	12,500	62,500[2]
Nassau	1	1	13,555	61,445[2]
New York	2	3	23,241	51,759[2]
Queens	0	0	-	75,000[2]
Richmond	0	0	-	75,000[2]
Suffolk	0	0	-	75,000[2]
Westchester	3	8	41,223	33,777[2]

[5] SUNY Maritime College designated 1,700 square feet of Tax Free NY space approved by the START-UP NY Approval Board pursuant to § 220.5(f)(1) of Title 5 of the New York Codes, Rules and Regulations. This 1,700 square feet is allocated against the 75,000 square feet of vacant space available for private collages and universities in each of the eight Downstate Counties.

BUSINESS PARTICIPATION

The end of 2016 marked the second full year that the START-UP NY program was up and running. In 2016, 80 business applications were received: 33 from existing, expanding New York State businesses; 43 from new businesses and four from New York State incubator graduates. Of those, 68 were approved in 2016. The remaining 12 companies were approved in 2017.

As of December 31, 2016, 212 companies were approved to participate in the program, of which 156 were operating in Tax-Free Areas. Of the 156 companies located in Tax-Free Areas, 141[6] companies reported 757 new jobs in 2016. Since the inception of the START-UP NY program, 1,135 jobs have been created and these jobs have paid a reported total of $95.7 million in wages.

Of the 1,135 jobs that have been created, an estimated 722[7] of those are considered net new jobs, meaning they are jobs that were created in the Tax-Free Area and have been part of the program for at least two quarters, or six months and one day, of a location year.[8] As participants of START-UP NY, eligible employees have reported receiving an estimated total of $3,937,871 in personal income tax exemptions, and companies have reported receiving an estimated $2,155,091 in other tax exemptions, including sales tax.

The businesses that are operating in Tax-Free Areas are not only creating jobs, but also investing in the communities in which they are located. A total of $31,374,797 was invested by START-UP NY companies in 2016, in addition to the $13.1 million invested in years 2014 and 2015, and this is just the beginning. Small companies, in particular, must secure financing and contracts before they can build out space and buy equipment. Investment rose each year from 2014 to 2016 and, based on business commitments, this trend will continue into the future.

[6] Pursuant to § 220.14(c) of Title 5 of the New York Codes, Rules and Regulations, a business that fails to submit an annual report to the Commissioner of Economic Development as required by §220.6(d)(2) of Title 5 of the New York Codes, Rules and Regulations shall be removed from the START-UP NY Program. Businesses have been notified and may appeal this decision within thirty (30) days.

[7] Empire State Development calculates net new jobs based on hiring data reported by participating businesses. At the time of publishing, a preliminary review has been conducted. This number may change based on further analysis in consultation with the Departments of Tax and Finance and Labor.

[8] A location year is defined by the date a business locates to a Tax-Free Area. For example, if a business moved in to a Tax-Free Area on May 17, 2014, its first location year would end on May 16, 2015.

Businesses Operating in Tax-Free Areas – Types of Business

Types of Business	Number of Companies	5 Year Job Commitment	5 Year Investment Commitment
Existing, Expanding NYS Businesses	59	1,484	$110,018,580
New Businesses	90	1,996	$67,150,949
NYS Incubator Graduate Businesses	7	80	$5,094,000
Total	**156**	**3,560**	**$182,263,529**

Businesses Operating in Tax-Free Areas – Regional Breakdown

Region	Number of Companies	5 Year Job Commitment	5 Year Investment Commitment
Capital Region	25	481	$17,915,488
Central New York	3	80	$6,776,219
Finger Lakes	11	551	$9,700,000
Long Island	21	227	$15,704,500
Mid-Hudson	6	215	$4,516,780
Mohawk Valley	2	37	$2,187,600
New York City	23	449	$23,913,500
North Country	4	76	$506,000
Southern Tier	11	178	$65,422,100
Western New York	50	1,266	$35,621,342
Total	**156**	**3,560**	**$182,263,529**

Public-private partnerships are vital to the innovation economy. The research that results from these partnerships will increase the commercialization of science and technology discoveries at the colleges and universities. Sponsoring institutions are seeing firsthand how their science is being applied, and, as a result, are adapting curriculums to the skills companies need. Additionally, as prominent members of their communities, the colleges and universities are partnering with local economic development agencies to support business growth.

Many of the participating businesses are new to New York State and chose to locate here because of START-UP NY. In fact, of the 212 companies approved to participate in the program by the end of 2016, 129 are new businesses and of those, 64 are locating or expanding from other states or countries to operate in New York State for the first time. These 64 companies have committed to creating 1,466 jobs and investing $58,778,096 during their first five years in the program.

In addition, eight companies commiting to creating 90 jobs are New York State incubator graduates: those companies that have successfully completed residency in a New York State Incubator or Innovation Hot Spot.

START-UP NY Approved Businesses

Types of Business	Number of Companies	5 Year Job Commitment	5 Year Investment Commitment
Existing, expanding NYS Businesses	75	1,851	$120,452,080
New Businesses	129	2,462	$104,813,365
NYS Incubator Graduate Businesses	8	90	$8,744,000
Total	**212**	**4,403**	**$234,009,445**

START-UP NY Approved Businesses Locating to New York State

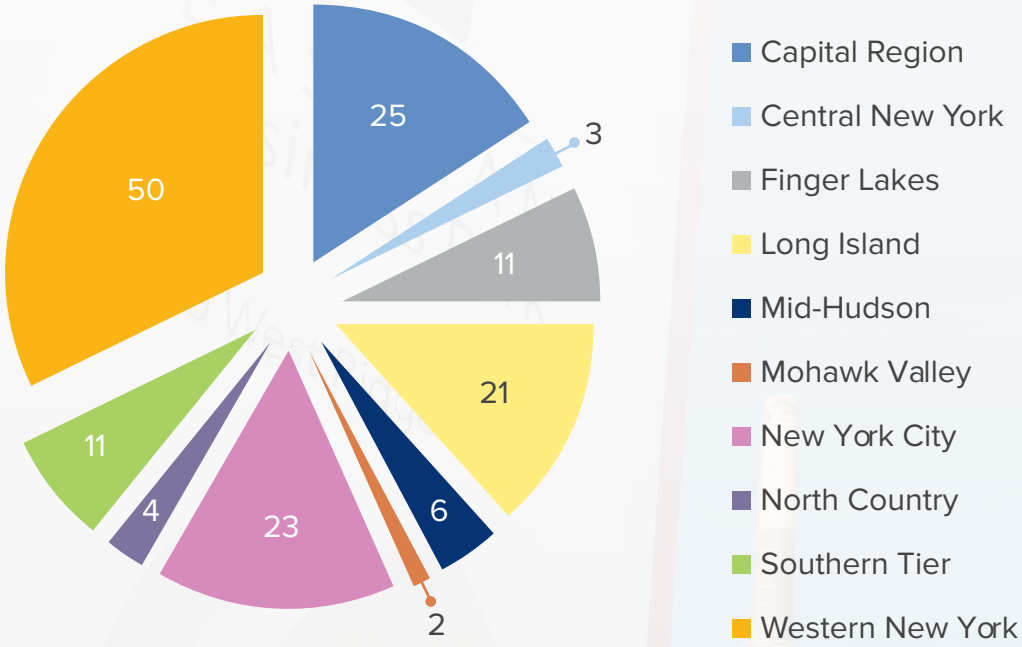
Type of Business	Number of Companies	5 Year Job Commitment	5 Year Investment Commitment
Businesses relocating to NYS from other states	21	697	$23,948,880
Businesses relocating to NYS from other countries	2	27	$139,500
Business expanding to NYS from out of state/country	41	742	$34,689,716
Total	**64**	**1,466**	**$58,778,096**

"START-UP NY is an important initiative at Hudson Valley Community College since the college has a long history of developing innovative collaborations to spur economic growth. Our START-UP NY proposal generated significant interest when announced last year, and we're already seeing the benefits of the program's new public-private partnerships -- direct hiring opportunities, semester-long internships for students, and workforce training classes. Since many of the college's academic programs provide a direct path to the workforce, START-UP NY offers our students an advantage and a close connection to emerging industries. We look forward to expanding these opportunities as more companies enter the program."

Andrew Matonak, Ed.D. , President, Hudson Valley Community College

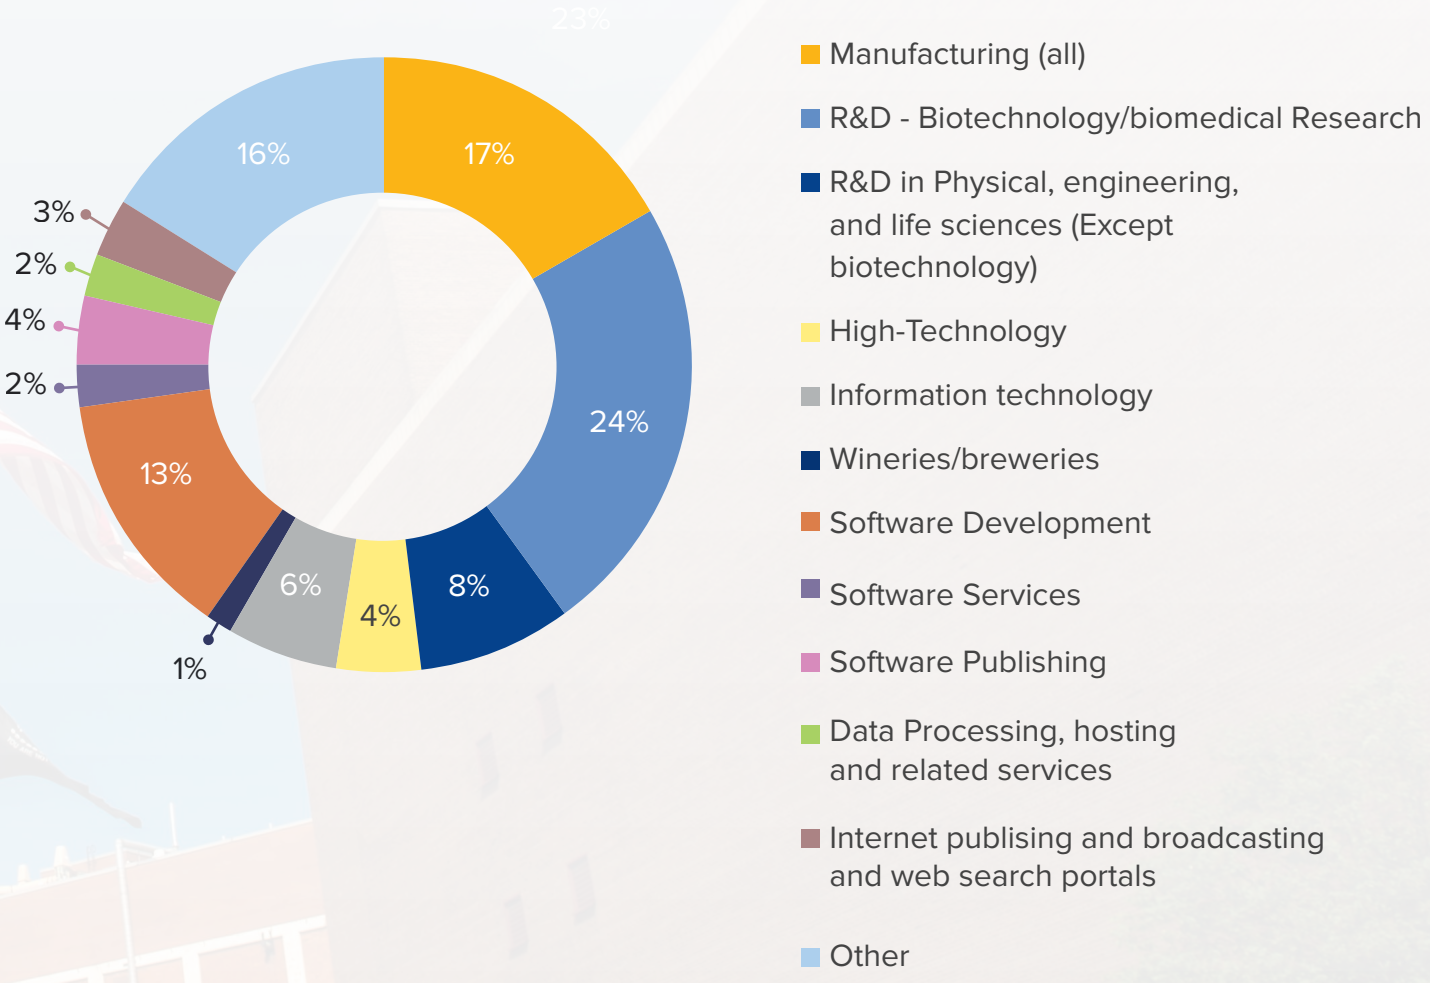
Participating Businesses – Regional Breakdown

Businesses are locating to Tax-Free Areas in every region of New York State, taking advantage of the state's diverse workforce and geography. Forty-four companies have located to Downstate regions, and 112 have or will locate to Tax-Free Areas in Upstate New York.



Participating Businesses – Industries

The companies are located throughout the state and also represent numerous industries. Each business must align itself with its sponsor's campus plan. This connection enables a business to rely on the college or university for expertise, equipment or mentoring, and allows the college to provide hands-on learning for its students. The START-UP NY companies represent a wide range of industries, including but not limited to: agriculture, breweries and wineries, aircraft manufacturing, computer system design and medical device manufacturing. The chart below shows a sample of the diversity of industries that START-UP NY companies represent.[9]



[9] Please see Appendix C for complete list of industries.

APPENDIX A:
START-UP NY PROGRAM OVERVIEW

Colleges & Universities

New York State is home to some of the most acclaimed colleges and universities in the nation. START-UP NY connects companies with academic institutions that align with their research and business development needs. SUNY, CUNY, community colleges and independent colleges and universities all have the opportunity to sponsor Tax-Free Areas. Appendix B lists the sponsoring institutions and the location, square footage and acreage of the Tax-Free Areas. To find out more about a college's plan and their Tax-Free Areas, follow the link in the table to go to the START-UP NY page.

State University of New York (SUNY)

Every SUNY community college and four-year college or university can designate the following eligible land and space as a Tax-Free Area:

- Vacant land on the SUNY campus (for every campus outside of New York City);
- Vacant space in buildings on the SUNY campus (for every campus outside of New York City);
- Any New York State incubator with a bona fide affiliation to the campus, university or college (for every campus outside of New York City, other than the Downstate Medical Center); and
- Up to 200,000 square feet within one mile of a campus (for every campus north or west of Westchester County), or further than one mile, with approval from Empire State Development (ESD).

In addition, Downstate Medical Center, Fashion Institute of Technology, Maritime College and College of Optometry are eligible to seek designation of vacant land and space on their respective campuses from the START-UP NY Approval Board (consisting of three members with significant experience in academic-based entrepreneurship appointed by the Governor, the Speaker of the Assembly and the Temporary President of the Senate).

City University of New York (CUNY)

CUNYs are able to designate as Tax-Free Areas vacant land and space on a campus in each borough of New York City (Manhattan, Bronx, Queens, Brooklyn and Staten Island) in an area the Commissioner of Department of Economic Development

> **"UTS, LLC is an expanding company in New York State and START-UP NY presented a unique opportunity for our company. Being in the START-UP NY program and facilities has provided us a huge boost from the interaction with students, faculty, industry experts and other emerging technology companies."**
>
> Joe Ambrosio, UTS, LLC, sponsored by Stony Brook University

determines to be economically distressed. CUNY Tax-Free Areas may include:

- Vacant land on the CUNY campus;
- Vacant space in buildings on the CUNY campus; and
- Any New York State business incubator with a bona fide affiliation to the campus, university or college.

With approval from the START-UP NY Approval Board, CUNYs are eligible to seek designation of additional vacant land or space on their campuses.

Private Colleges

The program also provides 3 million square feet (with the potential of 600,000 more) of Tax-Free Areas primarily dedicated to private colleges and universities on land north or west of Westchester County, to be allocated by the START-UP NY Approval Board in a manner that ensures regional balance and balance among eligible rural, urban and suburban areas in the state.

For private colleges and universities north or west of Westchester County, the Tax-Free Areas can include vacant land and vacant space on- or off-campus, as well as any New York State incubator with a bona fide affiliation to the campus, university or college.

Of these three million square feet, 75,000 square feet may be allocated in each of the following: Nassau County, Suffolk County, Westchester County, Brooklyn, Bronx, Manhattan, Queens and Staten Island. Private colleges and universities in New York City and Westchester, Suffolk and Nassau Counties, as well as SUNY and CUNY campuses not specifically designated, may apply to sponsor these Tax-Free Areas on college campuses. Once the 75,000-square-foot cap is reached in these counties and boroughs, the START-UP NY Approval board may designate up to an additional 75,000 square feet in each. Therefore, an additional 600,000 square feet of space may be available in these counties and boroughs.

"The START-UP NY program enabled our company to be competitive in hiring high paying scientist positions that would otherwise compete with large pharma/biotech employers. In several instances, employees accepted our employment offer with lower pay but matched with the START-UP NY benefit of withholding exemption. Furthermore, the 10-year START-UP NY personal income tax exemption benefit is an attractive part of our retention program, particularly for promising employees within the company."

Anderson Gaweco, Innovimmune, sponsored by SUNY Downstate Medical Center

Strategic State Assets

The three-member START-UP NY Approval Board may designate up to 20 Strategic State Assets as Tax-Free Areas. These areas must be state-owned vacant land, state-owned vacant facilities or state-owned facilities that are in the process of closing and becoming vacant. Each will be affiliated with a SUNY, CUNY or private college or university to attract new employers and new jobs and transform the site into a regional economic engine. In addition, the START-UP NY Approval Board may approve the land or space of four closed correctional facilities – Butler Correctional Facility, Chateaugay Correctional Facility, Monterey Shock Incarceration Correctional Facility, and Mount McGregor Correctional Facility - as Tax-Free Areas upon the application of a college or university to include such land or space in its plan.

In the 2015 budget, Stewart Airport in the Mid-Hudson region and Republic Airport on Long Island were authorized to be designated as START-UP NY Airport Facilities. Colleges and universities may partner with START-UP NY Airport Facilities to designate up to 200,000 square feet of airport land and space without regard to the applicable limitations on the amount of off-campus space that such colleges and universities may designate. The goal is to bring companies to vacant airport properties, thereby bringing economic benefit to the airports and their local communities.

"START-UP NY played a pivotal role in bringing BAK USA to Buffalo and has helped us attract talent from all around the region, especially recent graduates from the University at Buffalo. START-UP NY gave us the opportunity to hire more people, increase our production, and contribute more to the local economy. Our partnership with UB – which was made possible by START-UP NY – provided us with the critical business, manufacturing, and engineering consulting resources that we needed to grow. Additionally, through a dedicated internship program, our UB partnership allows us to recruit and eventually employ the next generation of bright minds."

J.P. Bak, CEO, BAK USA, sponsored by the University at Buffalo

"Case requires a technically trained workforce with proficiency in materials science. START-UP NY, through our sponsor, Hudson Valley Community College, is providing us with a direct connection to this future labor pool through their School of Engineering and Industrial Technologies. We look forward to a sustained and mutually beneficial relationship with START-UP NY and HVCC as we continue to develop new products and processes."

Russ Brooks, Co-founder Case Windows and Doors, sponsored by Hudson Valley Community College
